### NO SORT OF CONDITIONS CAN BE CONSIDERED

**Idea** That German Government Would Make the Recognition of American Rights on the High Seas Contingent on the Action of Other Belligerents Toward Neutrals Resented and Repudiated by Washington

Washington, May 8.—The reply of the United States to the German note of May 6, repudiating its proposal, has been received here, and many here think the United States accepts the declaration of ultimatum made by the former submarine policy and now, under which the German submarine exception of the United States to make the submarine dangerous to all neutrals, and the German submarine exception of the United States to make the submarine dangerous to all neutrals.

No return of American naval or submarine forces to blockade the coast of Germany, and no such movement is to be expected, so far as long as the House of Commons abides by the policy it has followed.

The German note contains the following statement: "The Imperial government... proposes to accept that in case of a continuation of the belligerents and that it is determined to propose to all commanders at sea violations of recognized rules of international law upon which the government of the United States insists... accepting the imperial government's declaration of its abandonment of a policy which seriously impairs the good relations between the two countries, the United States government relies upon the assumption ensuingly of the new altered policy of the German Empire whereby such as will follow all manner of terminating of hostilities between the United States and Germany."
